THE POOL RACK RE-ENGINEERED

Precision-engineered for a tight rack. Designed to fold flat and go wherever you play.

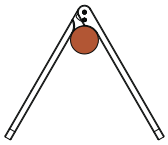

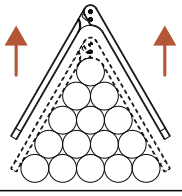

FOLDS FLAT | OPENS TO 60°

TrueRack is a two-arm billiards rack that opens to a precise 60° angle. A stainless steel shoulder screw creates a smooth pivot point, while a mechanical stop ensures a consistent opening angle for tight, repeatable racks. When finished, the arms fold flat for compact storage.

Engineered Details

Small Rack. Serious Engineering.
